

HBO CENTER START UP KIT

Opening a Hyperbaric Center does not need to be complicated or time consuming. The Sechrist team has bundled everything needed for treating patients safely, comfortably and efficiently as well as cost effectively.

The Hyperbaric Center Start Up Kit contains items required by NFPA, PVHO as well as items to make patients comfortable during their treatment. Also included are accessories that assist the hyperbaric treatment team to easily maintain the hyperbaric chamber.

Everything needed to outfit the Hyperbaric Center to safely, effectively and comfortably treat patients
